Question: 71

DRAG DROP

A bank uses Power Platform apps and flows to support business processes.

The company would like to use historical client data to predict whether a client's loan application is likely to be approved or rejected.

You need to use AI Builder to implement the solution.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Answer area

- Publish the model.
- Export data into AI Builder.
- Train the model.
- Import data into Common Data Service.
- Use the model in PowerApps or Microsoft Flow.

Answer:

Actions

Answer area

- | | |
|---|---|
| Publish the model. | Import data into Common Data Service. |
| Export data into AI Builder. | Train the model. |
| Train the model. | Publish the model. |
| Import data into Common Data Service. | Use the model in PowerApps or Microsoft Flow. |
| Use the model in PowerApps or Microsoft Flow. | |

Explanation:

Step 1: Import data into Common Data Service.

AI Builder requires the use of Common Data Service, which is the data platform for PowerApps and allows you to store and manage business data. Common Data Service is the platform on which Dynamics 365 apps are built so if you're a Dynamics 365 customer, your data is already in Common Data Service.

Step 2: Train the model

Step 3: Publish the model

The last step is to publish your model.

Step 4: Use the model in PowerApps or Microsoft Flow.

Question: 72

This question requires that you evaluate the BOLD text to determine if it is correct.

You have a Power BI report with a page named RevReceived. The page shows revenue received by your company. You want to create an almost identical page that shows net revenue instead of gross revenue. To accomplish this task, you modify the RevReceived page.

Review the underlined text. If it makes the statement correct, "No change is needed". If the statement is incorrect, select the answer choice that makes the statement correct.

- A. No change is needed.
- B. duplicate the RevReceived page.
- C. import the RevReceived page.
- D. copy the visuals from RevReceived to a new page.

Answer: B

Explanation:

Question: 73

You create a business rule on contact entity to enforce the requirement that users must enter either a telephone number, fax number, or an email when creating a new record.

The company decides to remove fax number from the condition.

You need to update the business rule.

What are two ways of achieving the goal? Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

- A. Save a copy of the rule and change the condition. Deactivate and delete the original rule.
- B. Deactivate the business rule and change the condition.
- C. Take a snapshot of the business rule and change the condition.
- D. Change the condition and activate the change.

Answer: A,D

Explanation:

Question: 74

A company is evaluating ways that they can implement AI Builder.

For which two scenarios can you use AI Builder? Each correct selection presents a

complete solution. NOTE: Each correct selection is worth one point.

A. Send emails to all al users who subscribe to a service.

B. Synchronize data from an external database.

C. Collect data from several data sources and display a dashboard that shows trending data.

D. Interpret images and perform an action on the image.

Answer: B,D

Question: 75

DRAG DROP

You are creating a model-driven app to track requests for quotes.

The app must use the following navigation structure:

Sales

Sales Log

Request for Quotes

Projects

Settings

Customers

Product Lines

Sales Territories

Administration

User Admin

Users

Roles

You need to create the app navigation.

Which sitemap component types should you use? To answer, drag the appropriate component types to the correct navigation elements. Each component type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. NOTE: Each correct selection is worth one point.

Question: 76

DRAG DROP

A company plans to create an information portal that managers can use to view critical information about their teams.

You need to recommend the type of Power BI components that the company should use.

What should you recommend? To answer, drag the appropriate components to the correct requirements. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. NOTE. Each correct selection is worth one point.

Component types	Answer Area	Requirement	Component type
Dashboard			
Report		Display data from a Microsoft Excel workbook that has multiple worksheets into one chart.	Component type
		Display the top departmental goal metrics and alert users when specific thresholds targets are met.	Component type
		Display Sales charts that can be filtered by region.	Component type

Answer:

Component types	Answer Area	Requirement	Component type
Dashboard			
Report		Display data from a Microsoft Excel workbook that has multiple worksheets into one chart.	Report
		Display the top departmental goal metrics and alert users when specific thresholds targets are met.	Dashboard
		Display Sales charts that can be filtered by region.	Report

Explanation:

Box 1: Report

Reports are more detailed data displayed in many formats like chart, graphs list and in tabular, etc.

Box 2: Dashboard

Dashboards are a business key performance indicator view where it displays key values that can change business profits and can be glanced at one screen.

Box 3: Report

Power BI dashboards cannot slice and dice, but reports have many ways to filter and slice.

Note: Power BI dashboards are one placeholder to display the most important decision-making facts to run a business. But reports are more detailed data displayed in many formats like chart, graphs list and in tabular, etc. Reports are based on one dataset or one business unit data for example reports of a store belonging to California.

Question: 77

HOTSPOT

You are building Power Apps apps that use both Dynamics 365 Sales and Microsoft 365.

For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct

selection is worth one point.

Answer Area

Statement	Yes	No
Dynamics 365 Sales and Microsoft 365 must be in the same tenant to allow Single Sign-On (SSO).	<input type="radio"/>	<input type="radio"/>
You must download a product from AppSource to ensure that SSO works with Dynamics 365 Sales and Microsoft 365.	<input type="radio"/>	<input type="radio"/>

Answer:

Answer Area

Statement	Yes	No
Dynamics 365 Sales and Microsoft 365 must be in the same tenant to allow Single Sign-On (SSO).	<input type="radio"/>	<input checked="" type="radio"/>
You must download a product from AppSource to ensure that SSO works with Dynamics 365 Sales and Microsoft 365.	<input type="radio"/>	<input checked="" type="radio"/>

Explanation:

Box 1: No

When you offer your application for use by other companies through a purchase or subscription, you make your application available to customers within their own Azure tenants. This is known as creating a multi-tenant application.

Box 2: No

Question: 78

HOTSPOT

A company plans to create a Common Data Service environment.

For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
You can create a Common Data Service environment in the Power Platform Admin center.	<input type="radio"/>	<input type="radio"/>
You must enable data encryption after you create a Common Data Service environment.	<input type="radio"/>	<input type="radio"/>
You can control security roles and privileges in a Common Data Service Environment from the Power Apps Admin center.	<input type="radio"/>	<input type="radio"/>

Answer:

Answer Area

Statement	Yes	No
You can create a Common Data Service environment in the Power Platform Admin center.	<input checked="" type="radio"/>	<input type="radio"/>
You must enable data encryption after you create a Common Data Service environment.	<input type="radio"/>	<input checked="" type="radio"/>
You can control security roles and privileges in a Common Data Service Environment from the Power Apps Admin center.	<input checked="" type="radio"/>	<input type="radio"/>

Question: 79

What is a benefit of deploying Microsoft 365 and Dynamics 365 apps in the same tenant?

- A. Use Common Data Services to connect to application data.
- B. You only need to set up groups in Microsoft 365 for permissions to all data.
- C. Users can access both Microsoft 365 and Dynamics 365 by using Single Sign-on (SSO).

Answer: A

Question: 80

DRAG DROP

A company uses Microsoft Excel workbooks to store consolidated sales data. Workbooks are stored on OneDrive for Business.

Match each Power BI feature to its requirement. To answer, drag the appropriate features from the column on the left to its requirement on the right. Each option may be used once, more than once, or not at all. NOTE: Each correct

match is worth one point.

Features	Requirement	Feature
Q&A	Enable user-friendly reporting on phones.	Feature
Mobile apps	Use natural language to query and aggregate data.	Feature
Export to Excel		
Get data from files		

Answer:

Features	Requirement	Feature
Q&A	Enable user-friendly reporting on phones.	Mobile apps
Mobile apps	Use natural language to query and aggregate data.	Q&A
Export to Excel		
Get data from files		

Question: 81

HOTSPOT

A user is trying to understand the differences between the various ways apps can be built by using Power Apps.

For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

Answer Area

Statement	Yes	No
You can embed canvas apps in model-driven apps.	<input type="radio"/>	<input type="radio"/>
A Power Apps portal can use only one data source.	<input type="radio"/>	<input type="radio"/>
You must use Power BI to create reports in model-driven apps.	<input type="radio"/>	<input type="radio"/>

Answer:

Answer Area

Statement	Yes	No
You can embed canvas apps in model-driven apps.	<input checked="" type="radio"/>	<input type="radio"/>
A Power Apps portal can use only one data source.	<input type="radio"/>	<input checked="" type="radio"/>
You must use Power BI to create reports in model-driven apps.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

Box 1: Yes

You can create a canvas app and then embed that within a model driven app.

Box 2: No

With the capability to build a portal in PowerApps, you can create a website for external and internal users enabling them to interact with data stored in Common Data Service.

Note: Common Data Service lets you securely store and manage data that's used by business applications. Data within Common Data Service is stored within a set of entities. An entity is a set of records used to store data, similar to how a table stores data within a database. Common Data Service includes a base set of standard entities that cover typical scenarios, but you can also create custom entities specific to your organization and populate them with data using Power Query. App makers can then use PowerApps to build rich applications using this data.

Box 3: Yes

To get started building a report you'll need the latest version of Power BI Desktop and a PowerApps environment with the latest version of the Common Data Service.

Question: 82

You are a district manager for a large retail organization. You train each store manager to use Power BI to track sales and daily sales targets.

A store manager remembers learning about the Analyze in Excel option but cannot find the option in their Power BI dashboard.

You need to help the user resolve the issue.

How should you advise the user?

- A. Install the Power BI Desktop app.
- B. Navigate to the report used by the dashboard.
- C. Select the Spotlight button on the dashboard tile.
- D. Subscribe to the dashboard and follow the email link.

Answer: B

Explanation:

Reference: <https://docs.microsoft.com/en-us/power-bi/collaborate-share/service-analyze-in-excel>

Question: 83

A company uses Microsoft 365 and Dynamics 365 Sales. The company does not have any developers on its staff.

You need to explain to the executives the benefits of using Power Platform apps.

What are two benefits? Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

- A. Users can send emails from Dynamics 365 Sales to their personal email addresses.
- B. Users can create Power Apps to create apps for different departments.
- C. Users can use Power Automate to share information between Microsoft 365 and Dynamics 365 Sales.
- D. The company must unify all the mobile devices to one vendor.

Answer: B,C

Question: 84

DRAG DROP

A company is using Power BI to build visualizations.

The company's IT support team needs to know when to install Power BI Desktop on users' computers and where the Power BI Service will suffice to perform tasks.

You need to recommend solutions for the company.

What should you recommend? To answer, drag the appropriate components to the correct requirements. Each component may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. NOTE: Each correct selection is worth one point.

Tools	Requirement	Component
Power BI Service only	Create dashboards.	Tool
Power BI Desktop only	Create reports.	Tool
Power BI Desktop or Power BI Service	Create calculated columns.	Tool
	Configure security.	Tool
	Configure sharing.	Tool

Answer:

Tools

Power BI Service only

Power BI Desktop only

Power BI Desktop or Power BI Service

Answer Area

Requirement

Create dashboards.

Create reports.

Create calculated columns.

Configure security.

Configure sharing.

Component

Power BI Service only

Power BI Desktop or Power BI Service

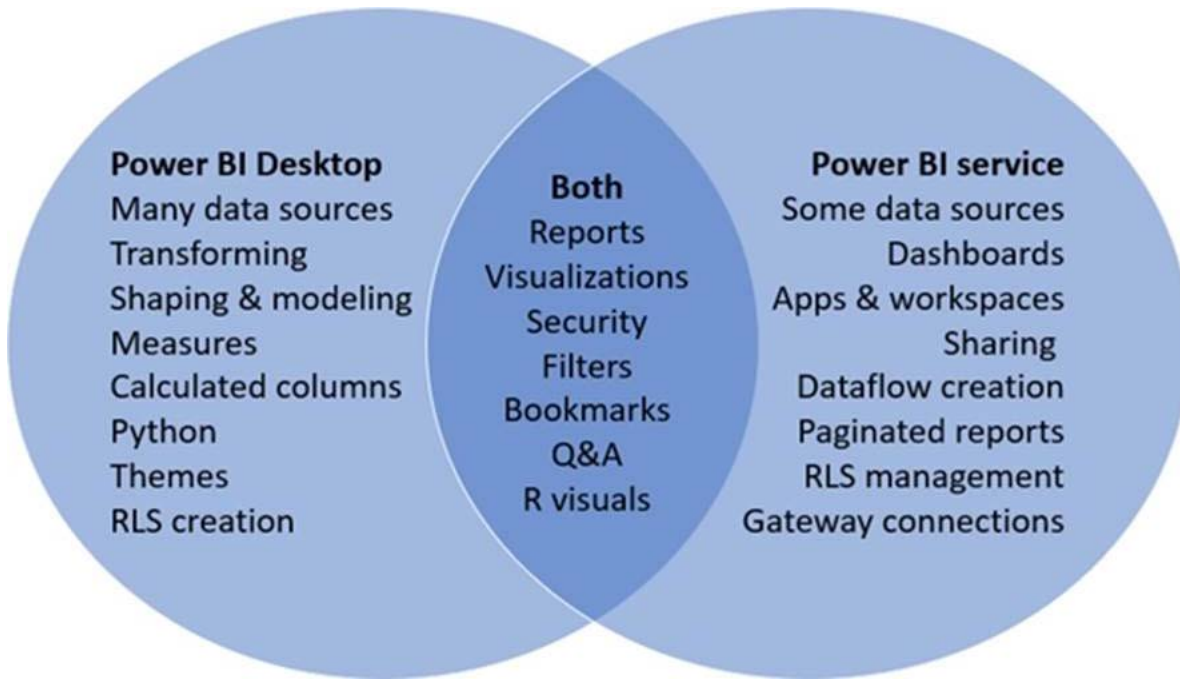

Power BI Desktop only

Power BI Desktop or Power BI Service

Power BI Service only

Explanation:

In a Venn diagram comparing Power BI Desktop and the Power BI service, the area in the middle shows how the two overlap. Some tasks you can do in either Power BI Desktop or the service. The two sides of the Venn diagram show the features that are unique to the application and the service.

Killexams.com is a leading online platform specializing in high-quality certification exam preparation. Offering a robust suite of tools, including Exam Questions, practice tests, and advanced test engines, Killexams.com empowers candidates to excel in their certification exams. Discover the key features that make Killexams.com the go-to choice for exam success.

Practice Exam Questions Based on Current Exam Objectives

Killexams.com provides practice exam questions aligned with the latest official exam objectives and latest syllabus. Our content is reviewed and updated regularly to reflect recent changes announced by certification vendors. By studying these practice questions, candidates will cover the structure, difficulty level, and topics of the actual exam, helping them prepare more effectively and efficiently.

Comprehensive Practice Exams (PDF Format)

Killexams.com offers multiple-choice questions (MCQs) in easy-to-read PDF format, covering all major domains of the exam. Each PDF contains a structured collection of practice questions and verified answers designed to support focused study. These MCQs help candidates reinforce key concepts, identify knowledge gaps, and improve exam readiness through consistent practice.

Realistic Practice Tests (Online Test Engine & Desktop Test Engine)

To support hands-on preparation, Killexams.com provides practice tests through both an Online Test Engine and a Desktop Test Engine. These tools are designed to simulate a real exam environment, allowing candidates to practice under exam-like conditions, with latest syllabus and topics of the exam. Performance tracking, test history, and result analysis help users evaluate their progress and focus on areas that need improvement.

Risk-Free Purchase Policy

Killexams.com follows a transparent and customer-friendly purchase policy. If users are not satisfied with the study materials, they may request assistance or a refund in accordance with our published terms and conditions. This policy reflects our commitment to customer satisfaction, fairness, and confidence in our preparation resources.

Regularly Updated Content

Our practice question bank is reviewed and updated on an ongoing basis to stay aligned with the latest exam outlines and vendor updates. This ensures candidates are studying up-to-date, relevant material, and preparing with content that reflects current exam expectations, helping them stay confident and well-prepared.
